

# Mobility is Broken! >>>

- !! 3 years of our lives wasted in traffic.
- !! 2%-4% of GDP lost in major cities.
- !! 15% of delays caused by transit alerts.

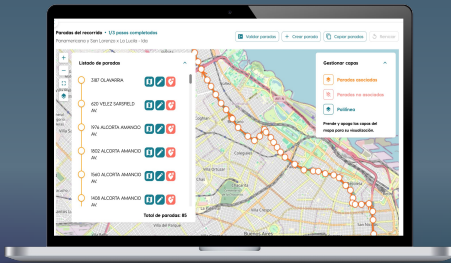

Ualabee is a SaaS mobility platform that integrates transit and mobility data from cities, delivering structured information & real-time insights to optimize urban transportation and improve daily commutes.

## APIs

Digitize and enable structured public transportation data.

Static GTFS | GTFS RT  
Transit Alerts | Transit APIs

MRR by Deal = \$2400

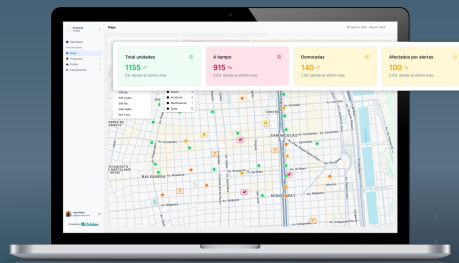

Google Maps YANGO

## INSIGHTS

Tools to support urban planning and informed decision-making.

Mobility Behaviour | Transit Alerts  
Communication Tools | Impact KPIs

MRR by Deal = \$1100

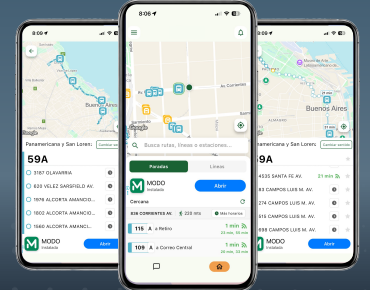

waze Municipalidad de Córdoba Quilmes

## APP

Accurate and real-time data to improve passengers retention

Route Planning | Waiting times  
Traffic anomalies | Safe commutes

MRR by Deal = \$2000
